Professional Summary:

Senior Backend Software Engineer with 5+ years of experience designing scalable microservices, distributed message queues, and high-performance REST APIs in cloud environments.

Technical Skills:

Languages: Python, Go, SQL

Frameworks: FastAPI, Flask, Django

Tools & Infrastructure: Docker, PostgreSQL, Redis, Kubernetes, AWS, Git

Work Experience:

Senior Software Engineer - CloudData Solutions (2021 - Present)

- Architected distributed data ingestion pipelines processing 10M+ events daily with FastAPI and Kafka.
- Optimized PostgreSQL query indexes, reducing latency by 45%.
- Containerized microservices using Docker and orchestrated deployments on Kubernetes.

Software Engineer - FinTech Labs (2019 - 2021)

- Developed payment gateway integrations with Python and Redis caching.
- Wrote comprehensive unit and integration test suites with 92% code coverage.

Education:

B.S. in Computer Science - Tech University (2015 - 2019)
