Professional Summary:

Machine Learning Engineer with 5 years of experience leading statistical experimentation and predictive m

Technical Skills:

Languages: Python, C++, SQL

Frameworks: PyTorch, Scikit-Learn, FastAPI

Tools: MLflow, Docker, Kubernetes, AWS, Git

Work Experience:

Machine Learning Engineer - Predictive AI Labs (2020 - Present)

- Designed and launched 40+ production A/B experiment iterations for recommendation engines.
- Built automated experiment tracking pipelines using MLflow, Docker, and PyTorch.
- Published research experiments on transformer model compression and inference optimization.
- Analyzed multi-variant user experiments to optimize conversion funnels.

Education:

M.S. in Computer Science - State Tech University (2018 - 2020)

B.S. in Mathematics and Statistics (2014 - 2018)
